

Ohio River Fisheries

By agreement, bordering states will honor Kentucky's sport licenses along their common borders on the **mainstem** of the Ohio River, excluding tributaries and embayments.

See **OHIO RIVER FISHING GUIDE** for all Ohio River access sites

Mississippi River

Anglers licensed in Kentucky may fish Missouri portions of the Mississippi River in the **mainstem** only. The center of the channel is the state line. By agreement, anglers fishing across state lines must abide by both state's regulations and when conflict occurs, observe the more restrictive regulation.

Dams

There are several types of dams in Kentucky:

- Navigation lock and dam system generally on the Ohio, Kentucky, and Green rivers.
- Impoundment dams that form most of our lakes.
- Low-head dams that only raise the water 1-6 feet but are located on small streams throughout Kentucky.

DANGERS!

- All dams have dangerous currents above and below the dam.
- Powerful "back" (reverse) currents exist below all dams and can be deadly if you are trapped in the "boils" below the dam.
- Larger dams have restricted zones posted which are generally 150 feet downstream from the dam and 150 feet laterally from the lock wall (if present).
- You must wear a PFD in the Restricted Zone.

Index Legend

A	"A" Ramp - any trailerable recreational boat	♿	Handicap Accessible
B	"B" Ramp - any LIGHT trailerable recreational boat	●	Year-round 24 hours
C	"C" Ramp - carry-down only	○	Year-round limited hours
S	Single launch lane	◆	Seasonal 24 hours
